

Sl.No	Name of the Guide	Name of the Candidate	Area of Specialization	Title of the Thesis	Thesis Awarded in the year
1	Dr.B.Ramachandra	Dr.V.Murulidhara	High Voltage Engineering	Quality Analysis of Insulators For DC Applications	2012
		Dr.BNageshwarRao	High Voltage Engineering	Dielectric Diagnosis of Power Equipment by Electrical, Analytical and Spectroscopic Techniques	2014
		Dr.A. Usha	Nano- Dielectrics	Synthesis and Characterization of Sensor for Biological Real Time Applications Using Conducting Polymers and Nano composites	2015
		Dr.Umesh D R	Data Mining & Big Data Analytics	A Study of Knowledge based Approach for the Prediction of Recurrence of Breast Cancer	2017
		Dr L Sanjeev Kumar	High Voltage Engineering	Role of Sulpher in transformer oil and it's influence on the performance of paper/press board insulation	2017
2	Dr.P.S.Puttaswamy	Dr.Sureka Manoj	Power System & FACTs Controllers	Power Quality improvement of Grid integrated hybrid wind-solar distributed generation using FACTS Controller	2014
		Dr.AnandaRaju M B	Power Electronics	Modeling& Designing of auto tuning PID Controller using Evolutionary Computational Techniques	2014
		Dr.Nagesh H B	Power System & FACTs Control	Voltage Stability assessment and enhancement in Power systems	2015
		Dr.Punith Kumar M B	Image Processing	Shot boundary detection methods for News Video based on Human skin region	2017
		Dr.Lalithamma.G.A	Control System	Development of PID controller	2018
