ITEM – 3	Review of suggestions by the Academic Council Members – 16th Academic Council Meeting
-----------------	---

Sl. No.	Suggestion / Issues raised by Academic Council Members	Action Taken / Action Plan
1.	Hon'ble members in reference to 137 th rank at National-level in Ministry of Education's National Institutional Ranking Framework [NIRF] 2022 in Engineering category expressed their view to maintain the consistency.	Our Institution is in the Rank band 201-300 during NIRF-2024 among Engineering institutions as announced by Minister for Education. The College positioned itself <ul style="list-style-type: none"> • in the Rank band 151 – 200 in NIRF-2023, • @ 137th Rank in NIRF-2022, • @ 139th Rank in NIRF-2021, • @ 147th Rank in NIRF-2020, • @ 161st in NIRF-2019 and constantly participating.
2.	Hon'ble members suggested to focus more on Innovative Innovation Cell (IIC) to promote the innovative ideas from the students / faculty to solve the socially responsible problems.	"Through the continuous advancement of the Institution's Innovation Council (IIC) at PESCE over the years, the college has significantly enhanced its focus on cultivating startup initiatives and innovation skills among students. This sustained effort has led to notable achievements in 2023, with more than 100 students participating in 11 national and state-level technical and business events across India, demonstrating strong entrepreneurial and problem-solving skills. Moreover, five student-led startups were successfully launched during the year.
3.	Hon'ble members expressed their views to focus more on employability / entrepreneurship / skill development courses in the curriculum.	PESCE has started the additional Skill Development Courses with the approval from the University for the students admitted after AY 2021-22. Further, it has been suggested to all BoS to review the syllabus periodically for employability quotient in consonance with syllabus review.
4.	Hon'ble members expressed their views towards MBA and MCA programmes accreditation by NBA	As per the suggestion from the Hon'ble members, MBA and MCA programmes applied for NBA accreditation during 2023. The NBA visit for MBA programme was successfully completed in August 2023, but the office of NBA recommended withdrawing the MCA application, suggesting the NBA portal is not compatible with the 2 & 3 year MCA program. This year MCA program is preparing to apply for NBA.
5.	Hon'ble members expressed that PESCE must start a new program in emerging technologies.	As per the suggestion from the Hon'ble members, PESCE has started TWO new programs Computer Science & Engineering (Data Science) and Computer Science & Business Systems (MoU with TCS) from the AY 2023-24.
6.	Hon'ble members expressed their views to promote students taking B.E. – Minor Program.	PESCE was promoting students to take B.E. – Minor programs with an additional 18 credits. Now, for the AY 2023-24 the university has relaxed the cut-off CGPA from 8.5 to 7.5. This, in addition, allows more students to enrol for B.E. – Minor program.

Day – wise report of the student induction program	
Day – 1 11.09.2023	SESSION – I
Title of the session: Welcoming freshers	
P. E. S. College of Engineering, Mandya being one the esteemed engineering institution in Karnataka serving rural area of Mandya welcomed First Year Bachelor’s Engineering students to our P. E. S. institution as well as the student induction program. Students are welcomed through online platforms like WhatsApp and E – Mail and banners at the college campus.	
	SESSION – II
Title of the session: Inauguration Program	
Chief Guest: The Principal, PESCE, Mandya	
Brief report of the session:	
<p>The student induction program was started by welcoming all the fresh faces of P. E. S. College of Engineering to the Campus. The inauguration of the program was held at Sri. K. V. Shankaragowda auditorium, Placement and Training Cell, PESCE. All the new entrants were guided by the faculty members at different entry points, to their seats in the auditorium. The dignitaries were requested to take their seats on the dais; Res. Principal Dr. H. M. Nanjundaswamy, Vice Principal Dr. Vinay S., Dean and Deputy Dean of Academics, Research and III, COE and HODs of all Departments, Heads of various Cells were present. The Inauguration program started with invocation song by Ms. Sanjana, B. E. second semester followed by the welcome speech by the Vice Principal Dr. Vinay S. The Vice Principal addressed the gathering remembering the contributions and dedication of Late Sri. K.V.S., The Founder of P.E.S. Institutions. He briefed the students on the Vision and Mission of the College, encouraging them to use the infrastructure available in the College. He further advised the students to set the right path for their future and congratulated them for choosing PESCE.</p> <p>Students were then introduced to Dean and Dept. Deans, COE, Department heads of all the Depts., heads of various other Cells. Then the program was inaugurated by lighting the Lamp. Honourable dignitaries on the dais joined with the Principal and Vice Principal to inaugurate the program. Followed by the lamp lighting, the student induction program coordinator Dr. Nayaka S. R. addressed students and parents present in the program and briefed the importance and implementation of the student induction program. Res. Principal Dr. H. M. Nanjundaswamy, presided the program then delivered presidential speech mentioning importance of education, competency and suggested students to utilize the facilities available in the college to brighten their future.</p> <p>The program ended by a formal vote of thanks by Dr. Harsha M., Assistant Professor, Department of Chemistry. The entire program was well handled by Smt. Rajani, Assistant Professor, Department of Physics with a nice anchoring.</p>	
	SESSION - III
Title of the session: Familiarization of the departments	
Brief report of the session:	

One of the main objectives of student induction program as suggested by All India Council for Technical Education (AICTE) is to familiarize institution and departments to newly joined B. E. students. So, we had a team of faculty members from each department to engaged students in the department also familiarize the department, faculties, laboratories, department libraries, excellent centres etc. This activity helped students to gain much knowledge about the facilities available in the college / department. Students can now use that knowledge to set his / her academic goals and achieve it.

Apart from the formal introduction, students were also given presentation on vision, mission of the department, curriculum, achievements in both curricular and cocurricular activities, alumnus and also brief awareness on outcome-based education was given to all new entrants. Students enjoyed the session a lot, also many students clarified their doubts. As a overall all the departments engaged students till 04.30 and at the end of the session students were felt very happy with their departments and the curious about knowing much about excellent centres and laboratory equipment's.

Title of the session: Yoga by GSS Foundations	
Speaker / Trainer: Sri. Pavan Krishna and Team	

Brief report of the session:

Yoga is one of the vital parts of healthy life that was given by Patanjali Maharshi. Nowadays India stands as a Yoga Guru to the world. Only the healthy mind can build a strong nation. Youths of today facing many physical and mental issues which in turn pull back the development of our country. So, yoga was included as an objective in the student induction program. GSS foundation, Mysuru engaged yoga to students of section A teaching them on meditation, simple aasanas and Pranayama.

	SESSION – II
--	---------------------

Title of the session: National Education Policy	
Speaker: Dr. D. R. Umesh Dy. Dean (Academic)	

Brief report of the session:

Speaker delivers a lecturer on vision of National Education Policy (NEP) and its benefits. Education is fundamental for achieving full human potential, developing an equitable and just society, and promoting national development. Providing universal access to quality education is the key to India's continued ascent, and leadership on the global stage in terms of economic growth, social justice and equality, scientific advancement, national integration, and cultural preservation. Universal high-quality education is the best way forward for developing and maximizing our country's rich talents and resources for the good of the individual, the society, and the country. India will have the highest population of young people in the world over the next decade, and our ability to provide high-quality educational opportunities to them will determine the future of our country.

The world is undergoing rapid changes in the knowledge landscape. With various dramatic scientific and technological advances, such as the rise of big data, machine learning, and artificial intelligence, many unskilled jobs worldwide may be taken over by machines, while the need for a skilled workforce, particularly involving mathematics, computer science, and data science, in conjunction with multidisciplinary abilities across the sciences, social sciences, and humanities, will be increasingly in greater demand. With climate change, increasing pollution, and depleting natural resources, there will be a sizeable shift in how we meet the world's energy, water, food, and sanitation needs, again resulting in the need for new skilled labor, particularly in biology, chemistry, physics, agriculture, climate science, and social science.

The growing emergence of epidemics and pandemics will also call for collaborative research in infectious disease management and development of vaccines and the resultant social issues heightens the need for multidisciplinary learning. There will be a growing demand for humanities and art, as India moves towards becoming a developed country as well as among the three largest economies in the world.

SESSION - III

Title of the session: Orientation on IEEE and Glug

Speaker: Student Members of IEEE and GLUG

Brief report of the session:

Report of IEEE:

The IEEE (Institute of Electrical and Electronics Engineers) PESCE Student Branch organized an informative and engaging orientation session for first-year engineering students. The event aimed to introduce the students to the benefits of IEEE, provide insights into past activities, introduce the team, and present a roadmap of future events. Additionally, a tech quiz was organized, with prizes for the winners.

Orientation Session Highlights:

- **IEEE Overview and Benefits:** The session began with an introduction to IEEE, highlighting its global significance as a leading professional organization for electrical and electronics engineers. Attendees were informed about the numerous benefits of IEEE membership, including access to research publications, networking opportunities, career development resources, and participation in technical events.
- **Past Activities Showcase:** Attendees were given glimpses of the various activities and events organized by the IEEE PESCE Student Branch in the past. This included technical workshops, guest lectures, hackathons, and community outreach programs. These experiences demonstrated the practical applications of engineering concepts beyond the classroom.
- **Team Introduction:** The team members of IEEE PESCE were introduced, showcasing their dedication and expertise. The team's commitment to promoting technological advancement and fostering a sense of community among students was emphasized.
- **Career Building Through IEEE:** The session provided insights into how IEEE can be leveraged to build a successful career. It was explained how involvement in IEEE activities can enhance a student's resume, broaden their skill set, and open doors to internship and job opportunities. The importance of networking within the IEEE community and with industry professionals was also emphasized.
- **Roadmap to Future Events:** A detailed roadmap of upcoming events was presented, giving students a clear vision of what to expect.

Key future events included:

1. Resume Building Sessions: To assist students in creating impressive resumes.
 2. Resume Review Sessions: Offering personalized feedback on resumes.
 3. Efficient Use of ChatGPT: A workshop on harnessing AI tools like ChatGPT for research and learning.
 4. DSA (Data Structures and Algorithms) Workshops: Enhancing coding and problem-solving skills.
 5. UX Design Workshop: Exploring the field of user experience design.
- Tech Quiz and Awards: An exciting tech quiz was conducted, testing the technical knowledge of the attendees. Winners were awarded prizes to acknowledge their knowledge and enthusiasm.
 - The IEEE PESCE orientation session for first-year engineering students was a resounding success. It provided a comprehensive understanding of IEEE, its benefits, and its role in shaping students' careers. The glimpse into past activities and the roadmap for future events generated excitement and motivation among the attendees. The tech quiz added a fun and competitive element to the event, making it both informative and engaging.
 - This orientation session marked the beginning of a promising journey for the first-year students, offering them a platform to explore their interests, enhance their skills, and connect with like-minded peers in the world of electrical and electronics engineering.

Report of GLUG:

GLUG (GNU LINUX USER's Group) PESCE conducted an orientation session for first-year engineering students. The purpose of the event was to introduce the club to the students. We provided an overview of open-source technology, introduced our team, and briefly discussed our upcoming events. Additionally, we organized a technical quiz.

Session Details:**Introduction to GLUG:**

We initiated the event by introducing GLUG to the students and engaging them in a discussion on the significance of skill development and the role played by GLUG in that regard. Additionally, we highlighted the advantages of being a GLUG member, including opportunities for networking, competitions, webinars, and workshops. The program was led by the student president of the GLUG, Mohana Priya K.J, and was anchored by Justine Sushanth and Tejaswini Raj. Attendees were given glimpses of the various activities and events organized by the GLUG PESCE Student Branch in the past.

Team Introduction:

Followed by the introduction, we also presented our team to the students and various internal teams within the club. Emphasizing the significance and roles of a team in driving the success of the club. Furthermore, we highlighted key team-related aspects. GLUG is not just a team; it is a collection of diverse individuals, each with their unique talents and expertise. They come from different backgrounds, but together, they form an unstoppable force committed to achieving success. The backbone of GLUG is its dedicated members, who work tirelessly to bring innovation.

About previous events:

We have also created a video showcasing all the events we have organized so far and highlighting the benefits of these events. Additionally, we emphasized the significance of acquiring

the right knowledge to thrive in this evolving industry. Our events primarily focus on individual skill development, resume building, continuous support in technology, and networking with industry professionals.

OPEN SOURCE AND GLUG:

The GLUG community advocates for Free Education and Free Society, embodying the ideology of the Free Software Movement. It has grown into a global network of large communities.

During our presentation, we highlighted the benefits of open-source technology and emphasized the advantages of using open-source software. Our focus in GLUG is primarily on open-source software and providing learning opportunities for students interested in Linux and open-source technologies.

Glug is an innovative tool that has revolutionized the way we work as a team. It provides us with a platform to collaborate effectively and achieve our goals together. It was explained how involvement in GLUG activities can enhance a student's resume, broaden their skill set, and open doors to internship and job opportunities.

The importance of networking within the community and with industry professionals was also emphasized.

TECH Quiz:

At the conclusion of the session, a knowledge assessment was administered to evaluate the technical aptitude of the students. Additionally, prizes will be bestowed upon the victors during our annual event, SAMYATI.

CONCLUSION:

The orientation session organized by GLUG PESCE for first-year engineering students was highly successful. It delivered a comprehensive insight into GLUG, its advantages, and its role in shaping the career paths of students. The overview of past events generated enthusiasm and motivation among the participants. The inclusion of a tech quiz brought a delightful and competitive element to the event, making it both informative and engaging. This orientation session signifies the commencement of a promising journey for the freshmen, providing them with a platform to explore their interests, enhance their skills, and connect with like-minded peers in the field of Engineering.

SESSION - III

Title of the session: Google Developers.

Speaker: Student volunteers of Google developers.

Brief Report of the session:

The Induction Program for first-year students at PESCE Mandya, focused on introducing them to the Google Developer Student Club (GDSC), was held on 21-09-2023. The purpose of this program was to familiarize students with the opportunities, resources, and activities offered by GDSC and to inspire them to actively participate and contribute to the club's initiatives.

Objectives:

1. **Introduction to GDSC:** Provide an overview of GDSC, its mission, and its role in fostering a community of passionate developers.
2. **Highlighting Benefits:** Communicate the benefits of being a part of GDSC, including access to cutting-edge technologies, workshops, and networking opportunities.
3. **Introducing the GDSC PESCE team:** Introducing the team to the freshers to make them understand the roles offered and the division of work.
4. **Encouraging Active Participation:** Motivate students to get involved in GDSC activities, workshops, and projects.
5. **Building a Supportive Community:** Foster a sense of belonging and collaboration among the members.
6. **Road Map for the future events:** Briefing them about the future plans and events related to the club activities.

Introduction to GDSC

- Presentation on the goals, and impact of GDSC globally and at PESCE Mandya.
- Testimonials from other GDSC members sharing their experiences.

3. Benefits of GDSC Membership

- Presentation on the advantages of being a part of GDSC, including access to Google tech, mentorship, and global networking.

4. Q & A Session and Networking.**5. Closing Remarks and Next Steps:**

- Summary of the day's events and a call to action for students to join GDSC activities.

Feedback and Evaluation:

- Feedback forms were distributed to attendees to gather their thoughts on the induction program.

Conclusion:

The Induction Program for first-year students about the Google Developer Student Club at PESCE Mandya

was a resounding success. It achieved its objectives of introducing students to GDSC, highlighting its benefits,

and encouraging active participation. The event received positive feedback from attendees, indicating a strong

interest and enthusiasm among students. We anticipate an increased level of engagement and contributions from new members in the coming academic year.

SESSION – II

Title of the session: Library and Information

Speaker: Dr. Kodandarama, Librarian

Brief report of the session:

Dr. Kodandarama's insightful presentation commenced with a deep dive into the subject of Library Facilities and Services in College. He embarked on an elaborate exploration of the library's pivotal role in the lives of students, articulating the various ways in which this academic sanctuary contributes to their growth and development.

The talk extended to practical aspects, where Dr. Kodandarama meticulously elucidated the library's operational hours, enabling students to align their schedules effectively with this invaluable resource. Moreover, he shed light on the library's vast collection, an impressive arsenal comprising more than 1 lakh books, 4000 journals, and an extensive repository of 6800-plus ebooks.

In doing so, he underscored the library's commitment to providing a rich and diverse collection of materials for students' benefit. Furthermore, Dr. Kodandarama thoughtfully addressed the 'why' behind utilizing the library, emphasizing its role in facilitating comprehensive research, enhancing academic performance, and fostering a favourable learning environment. His introduction to the library sections served as a practical guide for students navigating this treasure trove of knowledge, ensuring they could easily locate resources tailored to their specific needs.

One of the standout features of the talk was expert comparison of database information with web details. He elucidated the rigorous authorization process of information in databases, emphasizing

their credibility and reliability in contrast to the often-unverified information found on the web. This segment provided students with a valuable lesson in discerning trustworthy sources for their academic pursuits.

Moreover, Dr. Kodandarama's demonstration of how books and journals could be downloaded for free showcased the library's commitment to accessibility. This not only highlighted the modernization of library services but also ensured that students had convenient access to vital resources.

Finally, the presentation concluded with a practical guide on how to obtain previous years' question papers. This invaluable information would undoubtedly assist students in their exam preparations, demonstrating the comprehensive support that the library offers to their academic journeys.

In summary, Dr. Kodandarama's talk on Library Facilities and Services in College was a masterclass in emphasizing the library's pivotal role in students' lives.

SESSION – III

Report of the program: Visit to Library, PESCE.

With the brief introduction about the central library by Dr. Kodandarama in the morning session, students were taken to central library as well as department libraries. Students were introduced to various sections and guided on how to utilize the same in upcoming days.

Report of the Program Date:19-09-2023 Session-1

Lecture Title: Motivational Speech

Speaker: Mr. Chethan Ram Dean & Managing Trustee of 'Parivarthana Group of Institutions.

About the Speaker: Mr. Chethan Ram is a renowned International Trainer on Personality development and has been working towards developing individuals over the past 40 years. Mr. Chethan Ram trained over ONE million people across. Sri Chethan Ram has trained Teachers, Professionals, Students, Parliamentarians, members of Voluntary Organisations, Corporates and Businessmen and in the last 40 years. Mr. Chethan Ram founded Parivarthana School & College in Srirangapatna in 2015 and is presently the Dean & Managing Trustee of 'Parivarthana Group of Institutions'. Sri Chethan Ram is honoured with many State and National awards. The prestigious 'RAVI PURASKAR', National Award as the Best Trainer of India, was awarded to Sri Chethan Ram in 2005 by JCI India which is the only Worldwide Federation for young leaders and entrepreneurs. Also awarded with prestigious "INDIRA PRIYADARSHINI" National Award in 2013.

Mr. Chethan Ram began his talk by delving into the topic of old civilizations and how they came into existence. He likely discussed the origins and development of ancient civilizations, highlighting

the lifestyle of various historical figures such as the Adi Shankaracharya, Theerthankaras, Buddha, Swami Vivekananda, etc. This would provide students with insights into the diverse cultures and philosophies that have shaped human history. Mr. Chethan also touched upon the significance of the Indus Valley civilization, highlighting the value of peace as a shared ideal among all Indians. He stressed the importance of the principle "live and let live" and how it contributes to a harmonious and contented life. This message likely underscored the importance of tolerance, coexistence, and respect for others in society.

During his speech, Mr. Chethan emphasized the importance of seeking guidance and support from parents, guardians, and teachers to solve problems. He also encouraged students to become self-motivated individuals in order to achieve their ambitions and goals. This message likely aimed to inspire students to take responsibility for their own success and personal development. Furthermore, Mr. Chethan cautioned against developing bad habits that can negatively impact one's life. This advice likely centred on the idea that maintaining a healthy and disciplined lifestyle is crucial for personal growth and happiness.

In addition to promoting peace and patience, Mr. Chethan emphasized the importance of sharing knowledge and cultivating human values. These qualities, he suggested, are essential for leading a happy life and contributing positively to society.

He extended his congratulations to the students participating in the current induction program, acknowledging their achievement in gaining admission to the engineering college. This gesture likely aimed to boost their confidence and motivation as they embark on their educational journey. Overall, Mr. Chethan's talk appears to have aimed at inspiring and guiding students toward personal and societal growth, while also instilling a sense of responsibility, respect for others, and the importance of knowledge-sharing in their lives.

Mr Suresh Narasimha, Co-Creator, Co-Creat. ventures provided a talk on “ Entrepreneurship Skills ”. The speaker is well experienced and some achievements are as follows:	
--	--

- | | |
|--|--|
| <ul style="list-style-type: none"> • Runs a fund and VS that has created 30 student startups from universities. • A Technology & consumer-focused entrepreneur with 17+ yrs. of entrepreneurial experience who built successful VC backed companies like Justbooks, Bonhomia, TELiBrahma, MonkeyBox & Sensara. | |
|--|--|

- Have more than 10 patents from US PTO & several awards around computer vision & communications.
- An avid reader & a student of Indian Aesthetics

Session Highlights:

The speaker Enlightened the students with entrepreneurial skills. Session included

- How to be a successful entrepreneur
- Motivating stories of some successful entrepreneurs
- At last concluded by conducting a quiz.

Report of the program

The speaker spoke regarding the sports (indoor and outdoor) activities available in the college campus. The section discusses the best practices like conducting intramural tournaments in various sports and other physical fitness related activities which make involve mass participation of students of the college. Conducting selection trials to raise college teams in various disciplines of sports for inter-collegiate tournament. Offering several scholarships, monetary awards, track-suites, uniforms to the sportsmen to encourage outstanding performers and medalists in sports every year. Organizing VTU Inter Collegiate, VTU Inter Zone, inter University, State Level, National Level and other tournaments whenever we get an opportunity. Conducting sports awareness program on sports as a means for the promotion of health, fitness, national integration and communal harmony. Promote the traditional and rural sport to encourage cultural integrity among the students. Physical Education and sports wing of PESCE holds a passion for the art and science of movement and skill development through youth participation in sports and fitness programs. It believes in a quality and enjoyable learning environment that positively encourages and develops the body, mind and spirit. Finally, the section discuss the physical health benefits of sports like control weight gain, lower cholesterol levels, improve blood circulation, reduce hypertension, stronger immunity, stronger muscles, stronger bones and many more.

SESSION – III**Title of the session: Sports**

Speaker: Dr. Anantha-padmanabhprabhu, Physical Education Director

Brief report of the session:

The speaker gives motivation talk regarding strong and weak mind. He also explains importance of yoga for healthy and happy life. Yoga offers physical and mental health benefits for people of all ages. And, if you're going through an illness, recovering from surgery or living with a chronic condition, yoga can become an integral part of your treatment and potentially hasten healing. A yoga therapist can work with patients and put together individualized plans that work together with their medical and surgical therapies. That way, yoga can support the healing process and help the person experience symptoms with more centeredness and less distress. Yoga is as good as basic stretching for easing pain and improving mobility in people with lower back pain. The American College of Physicians recommends yoga as a first-line treatment for chronic low back pain. Regular yoga practice may reduce levels of stress and body-wide inflammation, contributing to [healthier hearts](#). Several of the factors contributing to heart disease, including high blood pressure and excess weight, can also be addressed through yoga. According to the National Institutes of Health, scientific evidence shows that yoga supports stress management, mental health,

mindfulness, healthy eating, weight loss and quality sleep.

Title of the session: Science and Engineering	
Speaker: Dr. G. Panduranga Murthy	
<p>Dr. G Panduranga Murthy's talk commenced with a powerful definition of a teacher: "A splendid creature of the nature who nourishes the students feature towards their better future". This evocative description set the tone for a thought-provoking discussion on various aspects of education and its profound impact on society. Throughout his address, Dr. Murthy underscored the fundamental values of unity and discipline, emphasizing their importance in the development of students. These principles, he argued, were essential for not only academic success but also for fostering responsible and well-rounded individuals. A significant portion of Dr. Murthy's talk was dedicated to the pivotal role of science and technology in the formative years of education. He highlighted the importance of applied science in the field of engineering, making a compelling case for its foundational role in technological advancements. In a memorable statement, he declared that basic sciences like physics, chemistry, and mathematics were the "mother of all engineering disciplines," highlighting the interconnectedness of these fields.</p> <p>The integration of science and engineering was a central theme of Dr. Murthy's discourse. He elucidated how the synergy between these domains' fuels progress in both basic science research and technological innovation. His insights on the evolution of basic science and its role in cutting-edge research provided a valuable perspective on the dynamic nature of scientific discovery. Addressing the students in the audience, Dr. Murthy discussed the challenges and opportunities they would encounter in their academic and professional journeys. By sharing his own research success stories empowered by basic sciences, he inspired his listeners, illustrating the transformative potential of dedicated study and research.</p> <p>Dr. Murthy's speech extended to the crucial topic of technology transfer, demonstrating the real-world application of scientific knowledge. By delving into this aspect, he emphasized the importance of translating research findings into tangible benefits for society, underlining the practical relevance of scientific endeavors.</p> <p>In conclusion, Dr. G Panduranga Murthy's talk was a profound exploration of the multifaceted relationship between education, science, and technology. His eloquent definition of a teacher set the stage for a discourse that emphasized the significance of unity, discipline, and the foundational role of basic sciences in engineering. Through his insights, and discussions of</p>	

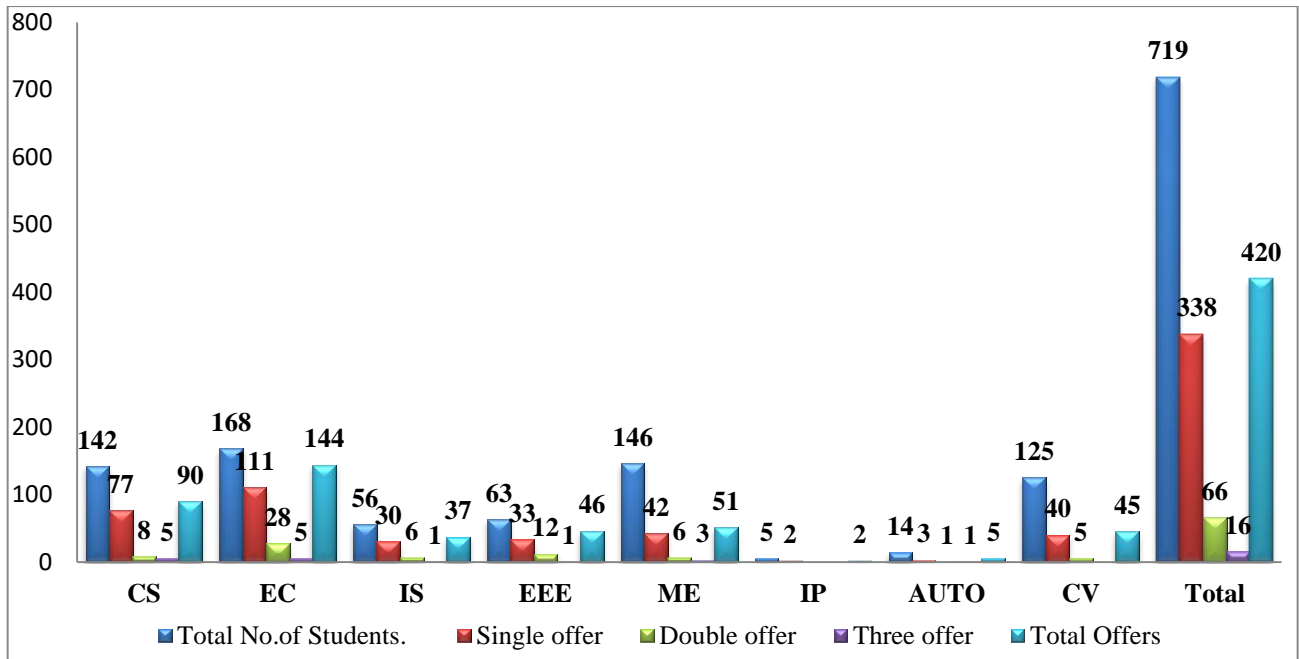

challenges and opportunities, Dr. Murthy left his audience with a profound appreciation for the transformative power of education and scientific inquiry in shaping a better future.

ITEM-9	Research Accomplishments
9 (b)	Sponsored Research Projects for the AY 2022-23

SPONSORED PROJECTS - 1

Funding Authority: AICTE funded project under Research Promotion Schemes (RPS)-General

Year: 2021-22 (Three years duration)

Proposal Title: “A novel method to form the inter-metallics in aluminum metal matrix composites while friction stir processing and welding”.

File No. **8-137 / FDC/ RPS/POLICY-1/ 2021-22**

AQIS ID: 1-9276814312

Sanction amount: **Total Rs. 18, 76,500/-**

First year: **16, 41,937/-** only (with recurring 14,07,375/- and non-recurring 2,32,532/-)

Principal investigator: **Dr. Sadashiva M**

Co PI : **Prof. Ramesh Kurbet**

Summary of Proposal: Significance of the research project is to improve the wear resistance and improve the bond strength of the Aluminum and Magnesium. The leakage in the fuselage parts and rocket components is a major issue and joining of the cooling unit in the automobile also requires defect less joining. When comes to the general application the housings for cell phones, control panels and to get high quality weld for high conductivity in transformers and batteries. Hence Friction stir welding (FSW) can be used as welding machine and surface modification technique.

SPONSORED PROJECTS - 2

Funding Authority: VTU Belagavi under Research Grants Schemes (RGS)- 2021

Year: 2021-22 (Two years duration)

Proposal Title: **“Study of Dynamic Stability and Effect of Vehicular Parameters on Road Fatalities of Indian Light Motor Vehicles”.**

File No. **VTU/BGA/Aca/A-12/VTU RGS/DIS-ME/2021-22/5862/25 Dated 18-02-2022**

Sanction amount: **Total Rs. 10 Lakhs**

First year: **8.25 Lakhs** First year: **1.75 Lakhs**

Principal investigator: **Dr. Madhusudana C K**

Co PI's: **Dr. K M Jagadeesha and Mr. Gopalareddy**

Summary of Proposal: Significance of the research project is the study of vehicle stability condition for longitudinal and lateral dynamics considering vehicular parameters and tire parameters. Research results help the government agencies to reframe the guidelines in assessment of road vehicle fatalities considering vehicle dynamic parameters and educate the people as to consider the vehicle dynamic parameters in selection of new vehicle platform. Also it helps to understand the effect of vehicular parameters like speed, CG location, etc., and tire parameters on vehicle longitudinal and lateral stability under different driving maneuvers.

SPONSORED PROJECTS - 3

Grant details: Setting up New Age Incubation Network (NAIN)

Funding Agency: Government of Karnataka

Amount: Rs 1.2 crore over a period of three years (Rs 40 lakhs every year)

Applied by: Dr. Vinay S, Professor, CSE & TPO

NAIN (New Age Incubation Network) is an entrepreneurial development program of the Government of Karnataka that focuses on creating an ecosystem to promote innovation and entrepreneurship in Karnataka.

Under this scheme, K-tech Innovation Hubs are established in various districts of Karnataka, which are fully funded by the Government of Karnataka. The students studying in different disciplines are motivated by project funding and mentoring to set up their own start-ups for self-employment.

Under NAIN, students are encouraged to identify local problems and address those problems using concepts of frugal innovation to develop appropriate technology-based solutions and working prototypes. The mentors assigned to the students help them formulate a business model based on this new technology and encourage them to think like entrepreneurs.

The scheme provides Rs 40 lakh per year, of which 10 ideas are funded up to Rs 3 lakh, totaling Rs 30 lakh. In addition to this, operational expenses of Rs 10 lakh every year are part of the scheme.

SPONSORED PROJECTS - 4

AICTE Project under Research Promotion Scheme (RPS-Mgmt)

Principal investigator: Dr. Aluregowda

Project Title: Microfinance initiatives for financial inclusion achieving through Empowering Rural Women and Poor

Area of Research: Women Empowerment

Academic Year: 2021-22

Funded Amount: Rs. 2,00,000/-

SPONSORED PROJECTS - 5

The ICERECT-2022 international conference is funded by AICTE which provides a financial assistance of Rs. 3,66,700/- under the scheme Grant for Organizing conference (GOC) and it is scheduled on 26th & 27th December, 2022. The conference is focused on the research activities in the areas of computers, mobile, Digital Media, E-Commerce, Data Science, Artificial Intelligence, Robotics, Industrial Automation, IoT, Industry 4.0, Cryptography, and Blockchain. The faculty members of Electronics, IT-related and Electrical branches are very keen to enhance their knowledge in the above emerging areas to cope up with the new technological developments. Hence, this International conference ICERECT will focus more research papers in the above areas from the researchers of Indian and foreign universities and from the industries. This conference will be highly useful for the faculty, students and researchers.

ITEM-9	Research Accomplishments
9 (e)	Centres of Excellence established at PESCE

▪ **Mechanical Engineering** **Center for Diagnostic Maintenance (CDM)**

In recent times Condition-Based Maintenance (CBM) and Prognostics has emerged as a significant technology that is making an impact on industrial maintenance practices. CBM technology characterized by the merging and strong coupling of interdisciplinary trends from the engineering sciences, computer sciences, reliability engineering, communications, management, etc. All these diagnostic and prognostic technology elements, techniques, and capabilities must be applied and implemented wisely to obtain maximum benefit impacts. The applications are in manufacturing systems, power plants, turbines, bearings, chemical plants, on-board car-engine diagnosis. Condition monitoring equipment is used extensively in the energy, petrochemical, cement, steel, paper and pulp industries.

▪ **Dept. of Electronics and Communication Engg.** **VLSI Design Lab**

To provide good VLSI design facility to UG and PG students and develop facilities for research scholars in the field of VLSI design to achieve excellence in this field and to motivate faculty members to take up research work and guide students in this area of specialization. To conduct regular training programs for students and faculty members from other academic institutions who want to improve their knowledge and practical skill in VLSI design and embedded system. The facilities available in the VLSI and HDL lab are CAD tools 6.1.6.64 bit version, Xilinx EDA tool ISE 14.2 software and FPGA kit such as Spartan 6, Vertex 5, and Vertex 6. Using these facilities, the PG and UG students can do experiments and projects in VLSI design and HDL. The research scholars can use these facilities.

▪ **Dept. of Electronics and Communication Engg.** **Medical Image processing lab**

The Facilities / services available are High-end workstations with high-resolution monitors (desktop computers), MATLAB Software-Version 15.B, Teaching Aid Interactive Panel, Network Accessories Router Cisco 1905. Work being carried in the areas; Diabetic Retinopathy, Retinopathy of Prematurity, MRI Image segmentation algorithms and Medical Image De-noising.

▪ **Dept. of Electrical & Electronics Engg.** **High Voltage Insulation Lab**

Facilities / services available in the laboratory are Shielded Chamber Based on faraday cage Principle, Vacuum system with high pressure chamber, High Frequency High Voltage Generator, at lab 30MHz Dual Trace Oscilloscope, PD free High voltage Generation Unit, Shielded chamber based on Faraday Cage principle & PC based partial Discharge analyser.

▪ **Civil Engineering** **Center for Alternative Energy Resource(CAER)**

This facility caters for, Awareness on Rain Water Harvesting and Bore well recharging techniques, Global warming, Green Environment, Water Pollution, Demonstration of Solar Energy, Bio- Fuel and Bio Gas production using Kitchen waste. Encouraging various research activities in the entire Bio fuel chain involving universities and research organizations (UG students project program)

▪ **Computer Science & Engineering** **Internet of Things (IoT)Laboratory**

This Laboratory is dedicated to applied and basic research on topics related to the Internet of Things (IoT). It focuses on the research and design of "open" and "flexible" hardware and software solutions for the implementation of complex IoT systems, targeting different vertical application scenarios, from Smart Homes/Buildings, to Smart Factory, Smart City, and so on. All of the elements of the IoT technology stack are focus of our research, including: sensors and actuators for remote monitoring and control, communication systems, edge computing algorithms, cloud platforms, system key parameter indicators (KPI) and advanced user interfaces.

▪ **Information Science & Engineering** **Network Forensics**

Network forensics is a sub branch of digital forensics relating to the monitoring and analysis of computer network for purposes of information gathering, legal evidence and intrusions detection, to carry out the project and research oriented work.

ITEM-10	Report on Industry Institute Interaction (III)
----------------	---

Industry Institute Interaction (III) Cell - PES College of Engineering

The Industry Institute Interaction (III) cell aims to bridge the gap between academia and industry, fostering a collaborative environment that enhances the skills, knowledge, and employability of students. Under the guidance of **Dr. R. Girish** as the **Dean** and **Dr. Sadashiva M** as the **Deputy Dean**, the III cell endeavors to create a symbiotic relationship between the institution and the industry. This initiative is designed to keep pace with rapid technological advancements and integrate the latest technological knowledge and skills into the education and training of our students.

The scope of the III cell encompasses a wide range of activities and initiatives that promote industry-academia collaboration, including industrial training and internships, workshops, seminars, and technical talks by industry experts. Additionally, it encourages joint research and development projects to address real-world engineering problems, collaborates with industry professionals to review and update the curriculum, and offers specialized training programs and certification courses to enhance students' technical and soft skills.

The cell organizes industry visits to provide students with firsthand understanding of industrial operations and processes. The primary goal of the III cell is to develop a robust interface between the institution and the industry, facilitating the exchange of knowledge and expertise. By achieving these objectives, the cell aims to enhance employability, promote innovation, develop industry-ready professionals, strengthen partnerships, and address technological obsolescence. Through these efforts, the III cell contributes to the overall development of its students and staff, promoting industrial and economic growth. By continuously updating and upgrading the skill sets of students and faculty, the III cell ensures that PES College of Engineering remains at the forefront of technological education and industry collaboration.

The III committee includes the following members for different programs (2023-24):

Program	Department III Coordinator	Co-coordinator
Electronics & Communication Engineering	Mahesh Kumar A S	Yeshwanth B
Mechanical Engineering	Ganapathy Bawge	Dr. Lakshmi Narasimha Murthy H R
Civil Engineering	R K Kumaraswamy	Dr. S Poorna Prajna
Computer Science & Engineering	Deepika	-
Information Science & Engineering	Rakshith N	-
Electrical & Electronics Engineering	H C Manohara	H R Chethan
Automobile Engineering	Akshay R N	Anand Raj S
Industrial & Production Engineering	M A Venugopal	M Sreenivasa
Master of Business Administration	Dr Somashekar P	Mahendra Kumar B R
Master of Computer Applications	K M Sowmyashree	Meghana B S

B. Objectives of III-Cell:

The primary objectives of the III cell is to develop a robust interface between the institution and the industry, facilitating the exchange of knowledge and expertise. This initiative aims to achieve the following objectives:

1. **Enhancing Employability:** Equip students with the necessary skills and knowledge to meet the evolving demands of the job market, thereby improving their employability.
2. **Promoting Innovation:** Foster an environment of innovation and research by encouraging collaborative projects and knowledge sharing between academia and industry.
3. **Building Competence:** Develop competent and industry-ready professionals by integrating practical industrial exposure with academic learning.
4. **Strengthening Partnerships:** Establish and maintain strong partnerships with various industries to create a sustainable and mutually beneficial relationship.
5. **Addressing Technological Obsolescence:** Continuously update and upgrade the skill sets of students and faculty to keep pace with rapid technological changes and advancements.

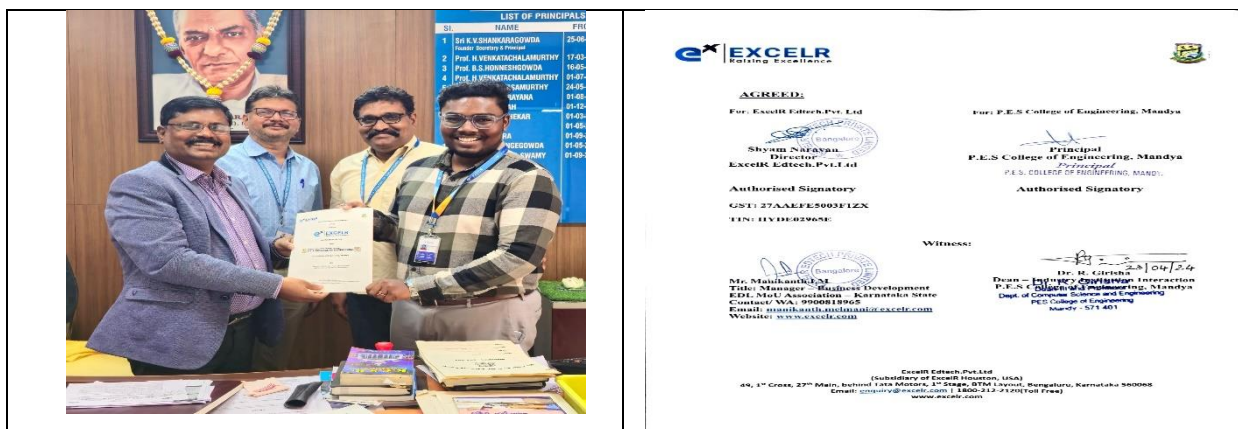

C. Activities for the year 2023-24:

a. Memorandum of Understanding (MoU’s):

To impart knowledge of present and emerging advanced technologies, it is essential to share information about upcoming developments. In this regard, the III cell supports the establishment of Memoranda of Understanding (MoUs) with various industries. The III Cell identifies potential industry partners and coordinates the MoU process. The department-wise Memoranda of Understanding established for the year 2023-24 are as follows:

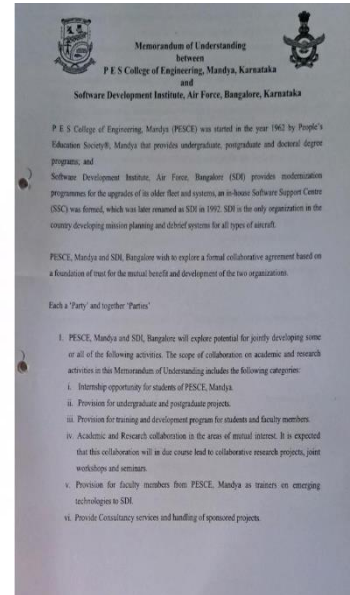

1. MoU with ExcelR Edtech Pvt. Ltd. and PESCE, Mandya:

On **April 23, 2024**, a Memorandum of Understanding (MoU) was established between **ExcelR Edtech Pvt. Ltd. and P.E.S College of Engineering, Mandya**. ExcelR, an EdTech company, and P.E.S College of Engineering, a prominent higher education institution, recognize the value of collaboration and cooperation. The primary aim of this MoU is to enhance the use of each party's resources and provide better opportunities through joint efforts in skill-based training, education, and research.

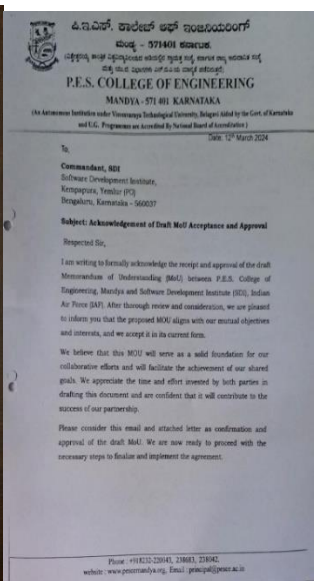

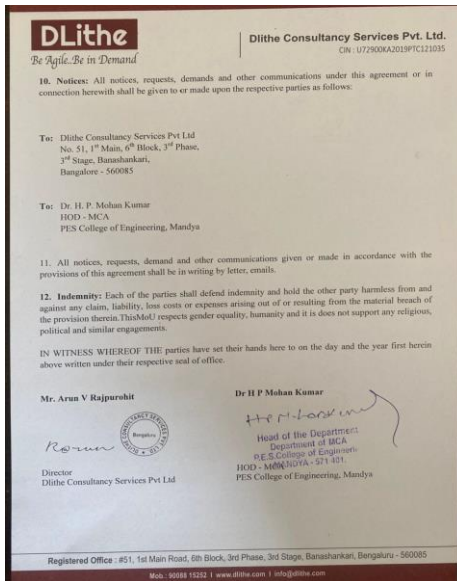

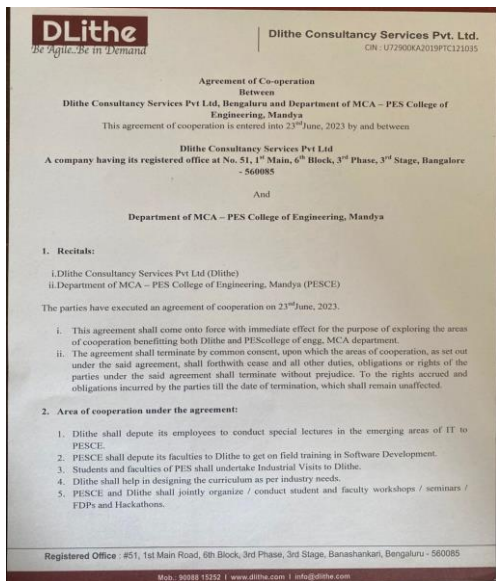

2. MoU with MG Motor India Private Ltd. and PESCE, Mandya:

The Memorandum of Understanding (MOU) between MG Motor India Private Limited and P.E.S. College of Engineering (EE&E), outlines the ethical and legal framework for their collaboration.

3. MOU with SAI CADD, Bengaluru was signed on 27-07-2023(Dept. of Civil Engineering)

4. Dlithe Consultancy Services Pvt Ltd, Bengaluru, will collaborate with the MCA Department of P.E.S College of Engineering, Mandya, from 23/06/2023 to 2026 for a duration of 3 years.

b. Technical Skill Development Training on AutoCAD - 3D

Fig. A technical skill development training programme was organized by Civil Engg. Department of PESCE Mandya for IV semester students during AY 2022-23 from 28-07-2023 to 04-08-2023 (06 days), in collaboration with SAI CADD Bengaluru and Industry Institute Interaction Cell (IIC) PESCE Mandya.

c. Visit to Technical Exhibition: BUILD TECH – 2023

Fig. A team of students visited to Build Tech -2023, Building Materials , Interiors , Exteriors – Expo at Kalikamba Samudya Bhavan, Mandya on 18th to 20th of August 2023.

Fig. The Department of Civil Engg. organized a technical site visit for students of IV semester in collaboration Industry Institute Interaction Cell (IIIC), PESCE, Mandya on 13-06-2024.

e) Work Shops Conducted:

Fig. Electrical & Electronics Engineering students and the company dbsons, Tumkur, will provide a hands-on training session on Electrical Switchgear & its Applications from 30/04/2024 to 01/05/2024 for 59 students, sponsored by PESCE, Mandya.

f) Technical Talk:

Dr. Gillian Lacey, Professor at Teesside University, Middlesbrough, Tees Valley, will deliver a one-day seminar on Electric Vehicle (EV) Technologies on 13/04/2024 for I, IV, and V semester students and faculties of the Department of Electrical & Electronics.

Student development program on industry outreach program - “Practical Approach To Construction Technology”

The student development program on industry outreach, titled "Practical Approach to Construction Technology," focuses on equipping students with hands-on skills and knowledge relevant to the construction industry. Through practical training and workshops, participants will gain valuable insights and experience in applying construction technologies effectively.

Technology is evolving in such a way that it's impossible to cover all the areas in our academic curriculum, hence to bridge this gap we had conducted beyond syllabus activities for the students of 6th semester. Iii pesce had appointed adjunct faculty from the industry of their respective domain to train our students in their expertise.

The activities were conducted for ten weeks on every Saturday in the odd and even semester in the ay 2023-24.the beyond syllabus activities helped students gain more knowledge about networking, up stocks and azure etc like advanced technology. It also provided an insight into the real working environment, with this learning experience students have developed confidence in the subject and it was a good opportunity for students to interact with the industry experts.

ITEM-11 Report on Institution’s Innovation Council (IIC)**ABOUT**

IIC-PESCE IIC-PESCE has established in the academic year 2018-2019 with an aim to create entrepreneurial environment in the HEI and its surrounding. And the organization is successfully running the IIC from the past six years with conducting ample amount of activities and trainings for students as well as faculties.

ಮೈಸೂರು ವಿಭಾಗ ಅಂತರ ವಲಯ ಫುಟ್ಬಾಲ್ ಪಂದ್ಯಾವಳಿಗೆ ಚಾಲನೆ

ಮಂಡ್ಯ: ನಗರದ ಪಿ.ಇ.ಎಸ್. ಇಂಜಿನಿಯರಿಂಗ್ ಕಾಲೇಜು ವತಿಯಿಂದ ಪಿಇಟಿ ಕ್ರೀಡಾಂಗಣದಲ್ಲಿ ಆಯೋಜಿಸಿರುವ ಮೈಸೂರು ವಿಭಾಗದ ಅಂತರವಲಯ ಫುಟ್ಬಾಲ್ ಪಂದ್ಯಾವಳಿಗೆ ಪಿಇಟಿ ಸಂಸ್ಥೆಯ ಕಾರ್ಯದರ್ಶಿ ಎಸ್.ಎಲ್. ಶಿವಪ್ರಸಾದ್ ಚಾಲನೆ ನೀಡಿದರು.

ನಂತರ ಮಾತನಾಡಿದ ಅವರು, 1980ಕ್ಕೂ ಮುಂಚೆ ನಮ್ಮ ದೇಶದಲ್ಲಿ ಹಾಕಿ ಮತ್ತು ಫುಟ್ಬಾಲ್ ಜನಪ್ರಿಯ ಆಟಗಳಾಗಿದ್ದವು. 1983ರಲ್ಲಿ ಭಾರತ ಕ್ರಿಕೆಟ್ ತಂಡ ಮೊದಲ ವಿಶ್ವಕಪ್ ಗೆದ್ದ ನಂತರ ಕ್ರಿಕೆಟ್ ಜನಪ್ರಿಯತೆ ಗಳಿಸಿತು. ಯೂರೋಪ್ ಮತ್ತು ದಕ್ಷಿಣ ಅಮೆರಿಕಾದಲ್ಲಿ ಫುಟ್ಬಾಲ್ ಜನಪ್ರಿಯ ಆಟವಾಗಿದೆ. ಆದರೆ, ಏಷ್ಯಾದಲ್ಲಿ ಕ್ರಿಕೆಟ್ ಹೆಚ್ಚಾಗಿ ಆಡುತ್ತಾರೆ. ಅಂದಾಜು ಹತ್ತೆರಡು ಹನ್ನೆರಡು ದೇಶಗಳಲ್ಲಷ್ಟೇ ಕ್ರಿಕೆಟ್ ಜನಪ್ರಿಯವಾಗಿದೆ ಎಂದು ಹೇಳಿದರು.

ಗೆಲ್ಲುವುದಕ್ಕಿಂತ ಮನಃಪೂರ್ವಕವಾಗಿ ಆಟವಾಡಿ, ಸೋತರೂ ಮನಸೋಲದ ನಿಮ್ಮ ಪ್ರಯತ್ನ ಗೆಲುವಿನತ್ತ

ಮಂಡ್ಯದ ಪಿಇಟಿ ಕ್ರೀಡಾಂಗಣದಲ್ಲಿ ಆರಂಭವಾದ ಮೈಸೂರು ವಿಭಾಗದ ಅಂತರವಲಯ ಫುಟ್ಬಾಲ್ ಪಂದ್ಯಾವಳಿಗೆ ಪಿಇಟಿ ಸಂಸ್ಥೆಯ ಕಾರ್ಯದರ್ಶಿ ಎಸ್.ಎಲ್. ಶಿವಪ್ರಸಾದ್ ಚಾಲನೆ ನೀಡಿದರು.

ಸತತವಾಗಿರಲಿ ಎಂದು ಆಟಗಾರರಿಗೆ ಸ್ಫೂರ್ತಿ ತುಂಬಿದರು.

Finally, we can hardly tell all how blessed the god is to have such a wonderful, talented and cooperative Management, Principal and my colleague staff. Without each one of the associate staff members, it would be impossible for us to guide the students and to make them participate and achieve in all the sports and extracurricular activities and the department always thankful to the management, principal, all the staff members (teaching and non-teaching) for their kind support and encouragement.

I think that our Annual Report (Till Date) of Physical Education and sports Activities has shown that our student has been engaged, achieved and enjoyed a lot indeed. More, no doubt, can still be done... excellence in this field should be our goal! President Obama said “Yes, we can”, as part of his inaugural speech. I can safely say at the end of one year, not only “Yes, we can achieve”, but “Yes, we have Achieved”.

ANNEXURE - I

Proceedings of BOS Meeting - UG for the Academic Year 2024-2025

Department of Automobile Engineering

Proceeding of the BOS meeting held on 20/05/2024.

Agenda:

Finalizing the syllabus for **VII and VIII** semester for **NEP-21** Scheme for AY-2024-2025.

Members of BOS present,

Internal BOS Members:

1. Dr. B.Dinesh Prabhu
2. Sri. Srikanth G D
3. Sri. Anand Raj S

External BOS Members:

1. **Dr. A N Basavaraju.**
Assistant Training & Placement
Officer, MCE Hassan.
2. **Dr. M.K Ravishankar.**
Professor,
Dept. of Automobile
Engineering, MCE Hassan.
3. **Dr. Nanda kumar M B.**
Associate Professor,
Dept. of Automobile Engineering,
DSCE Bangalore.

The meeting started with introduction of present BOS members, greeting and welcome speech by Dr. N Jagadeesh, BOS Chair Person and Head of Automobile Engineering department. **The following recommendations /suggestion were made based on the discussion from BOS panel members. Overview of scheme for VII and VIII semester of NEP-P21 scheme.**

1. **Dr. M.K Ravishankar**, suggested to change the word from tire to tyre and keep the same word in the whole syllabus.
2. **Dr. A.N Basavaraju**, suggested to keep the blooms level up to L3 for all theory subjects instead of L4.
3. **Dr. Nanda Kumar M B**, suggested to add government policies towards electric vehicle, motor characteristics and fuel cell comparative analysis for the **subject Electric and Hybrid Vehicles [P21AU701]** and for the subject **Automotive Air Pollution and Control [P21AU7023]** add

modifications made in BS-VI.

4. **Dr. Nanda Kumar M B**, also suggested to change the **unit 5** title for the subject **Automotive Embedded System [P21AU7032]** as both course title and unit title are same.
5. The introduction of new course **Vehicle Diagnostics** (Integrated Subject) (**P21AU704**) to utilize the automobile laboratory effectively.

The BOS meeting was concluded with vote of thanks by HOD of Automobile Engineering Department.

Actions taken for the BOS meeting held on 20/05/2024.

1. **Dr. M K Ravishankar**, suggested to change the word from tire to tyre and keep the same word in the whole syllabus.
Action Taken: we change the word from tire to tyre and keep the same word in the whole syllabus.
2. **Dr. A N Basavaraju**, suggested to keep the blooms level up to L3 for all theory subjects instead of L4.
Action Taken: The blooms level up to L3 for all theory subjects instead of L4, modification were made in the theory subjects.
3. **Dr. Nanda Kumar M B**, suggested to add government policies towards electric vehicle, motor characteristics and fuel cell comparative analysis for the **subject Electric and Hybrid Vehicle [P21AU701]** and the BS VI modifications were added to subject **Automotive Air Pollution and Control [P21AU7023]**.
Action Taken: The mentioned suggestions and polices were added in self study component.
4. **Dr. Nanda Kumar M B**, also suggested to change the **unit 5** title for the subject **Automotive Embedded System [P21AU7032]** as both course title and unit title are same.
Action Taken: The **unit V** title was changed from automotive embedded system to Vehicle communication system.
5. The introduction of new course **Vehicle Diagnostics (P21AU704)** to utilize the automobile lab effectively.
Action Taken: The course was approved and proposed curriculum were accepted and approved.

Department of Civil Engineering

The meeting was held at Civil Engineering Department, P.E.S.C.E, Mandya on 07th May 2024.

BoS Members present:

Minutes of meeting of BoS (U.G.) held on 07-05-2024:

Dr. H.C. Chowdegowda welcomed the members and briefed about aim, advantages and other issues of attaining BoS meeting. The following suggestions were made by the above panel members in framing the NEP Scheme of VII and VIII semester.

Mr. Nagesh P suggested:

- 1) To mention IS requirements instead of IS recommendations in unit-I (P21CV701).
- 2) Analysis of bus bay in unit-III (P21CV7022).
- 3) Bengaluru Traffic Police Management Software and Command Centre in Self-study component in unit-V (P21CV7022).
- 4) Green highway in Self-study component in unit-IV (P21CV7022).

Dr. H S Narasimhan suggested:

- 1) To mention the parameters for Hydraulic Design for linear waterway (P21CV7021).
- 2) Design of box culvert (single cell) in unit-IV (P21CV7021).
- 3) Structural detailing of box and pipe culvert in Self-Study Component for unit-IV (P21CV7021).

- 4) N.B.C. 2016 for PSC course (P21CV701)
- 5) Quantity of slab requirement (P21CV704)

Dr. Balaji suggested:

- 1) Protective filter graded filter inn unit-II (P21CV7023).
- 2) Counter fort retaining wall to retaining wall with moment redistribution in unit-II (P21CV7031).
- 3) Rename unit-II as “Redistribution of Moments” (P21CV7031).

Dr. S M Shivanagendra:

- 1) Metro projects and large scale housing projects as EIA case study (P21CV7024).
- 2) To modify the course name of P21CV704 as “Quantity Estimation and Contract Management”, since survey is not reflecting the course contents.

Dr. H. C. Chowdegowda suggested:

- 1) Evaluation and interpretation of audit data in unit-V (P21CV7024)
- 2) Policies and regulatory frame works in unit-III (P21CV7024).

Dr. D. S. Sandeep Kumar suggested:

- 1) Sheaths and ducts in Self-study component in unit-II (P21CV701).
- 2) Zoning concept in Unit-II (P21CV7032).

Prof. R. K. Kumarswamy suggested:

- 1) Foundation treatment for structures in expansive soil in unit-IV (P21CV7033).
- 2) Tail water curve and jump water curve in unit-IV (P21CV7034).
- 3) Simple design problems on Ogee spillway in unit-V (P21CV7034).

Mr Sharath H P suggested:

- 1) Effect of ground water table on bearing capacity in unit-V (P21CV7023).
- 2) Uses of flow nets in unit-II (P21CV7023).

Dr. S. Poorna Prajna suggested:

- 1) Level of service in unit-II (P21CV7022).
- 2) VMS under traffic signs in unit-III (P21CV7022).
- 3) Intermodal transportation in Unit-V (P21CV7032).

Thejas K. U. (4PS20CV096) suggested:

- 1) To have more exposure to pratical experience
- 2) Software training as per market requirements.
- 3) Include green building

Sahana (4PS20CV077) suggested:

- 1) Accident spot analysis, analysis of bus bay (P21CV7022)
- 2) Public participation in EIA (P21CV7024).

After long deliberations and discussions, following resolutions were made,

1. As per NEP scheme, the syllabus for various subjects were altered with improvisations.
2. Suggested to include application of AI & ML in Civil Engg.
3. Finalised the syllabus of VII and VIII semester NEP P21 scheme.
4. Scrutinized the shortlisted NPTEL courses for VIII semester **Self-Study Course** (P21CV801).
5. Scrutinized the shortlisted courses for Minor degree under VTU.

Department of Computer Science & Engineering

Proceedings of BOS (UG) Meeting held on 08-06-2024

Agenda:

To discuss and approve the scheme and syllabus, B.E. (CS & E) of:

1. 2021 scheme (7th and 8th semester)
2. 2022 scheme (5th and 6th semester)

BOS meeting of UG Board was held on 8th June 2024 in the department of Computer Science & Engineering to discuss and approve the scheme and syllabus of 5th and 6th semester of 2022 scheme and 7th and 8th semester of 2021 scheme B.E. (CS & E) subjects. Dr. Nagarathna, Professor & HOD was the chairperson.

At the outset, Dr. Nagarathna, Chairperson (BOS UG), welcomed the external and internal members to the meeting. The entire syllabi of all 5th & 6th and 7th and 8th semesters were presented by the concerned faculty members. The agenda (as above) was discussed in the meeting elaborately. It was decided to retain the syllabus of 2021 scheme (5th and 6th semester) for 2022 scheme (5th and 6th semester) with slight modifications in few subjects, the syllabus of “Block Chain Technology” of 6th semester (2022 scheme), was with major changes which was presented in the meeting and was approved in the meeting.

The suggestions given by external members have been listed and enclosed within the same and the suggested modifications given by the external BOS(UG) members were incorporated. Finally, Dr. Nagarathna, Chairperson (BOS-UG), concluded the meeting by thanking all the members present in the meeting for their valuable suggestions.

Suggestions regarding the scheme and syllabus of 5th and 6th semester of 2022 scheme and 7th and 8th semester of 2021 scheme B.E. (CS & E) given by the External members on BOS(UG) meeting held on 08-6-2024.

Dr. M. Indiramma (Subject experts from outside the college)

Professor & HOD

Department of AI & DS,

B.M.S. College of Engineering,

Bull Temple Road, Bengaluru

Suggestions regarding the scheme and syllabus of 5th and 6th semester of 2022 scheme and 7th and 8th semester of 2021 scheme B.E. (CS & E).

Machine Learning Course:

1. To revisit the contents (5th unit could be reduced).
2. Reinforcement learning: to be one unit
3. Ensemble – Move to 4th unit

Industry 4.0:

1. Digital twin concept – missing

Managing Big Data:

1. In memory db key pair DB, Mongo DB, No SQL, and Cap theorems: To be included in first unit.
2. Suggested to include hands on sessions
3. Hadoop – Can use cloud platform.

NLP:

1. LLM models – Case studies, chat GPT.

Distributed DB Systems:

1. Text book – New edition or reprint
2. Face commit protocols, Disaster management, RAID Architecture – Include to Chapter-I.

System Architecture & Design Patterns:

1. Check if UML models are discussed in Software Engineering.

DSS:

1. Unit-IV: Self-study component to be rechecked.
2. Check for new text books.

Generative AI:

1. Include Dark side of generative AI- power of computing and ethics in Unit-1.

Dr. K. Raghuv eer (Subject experts from outside the college)

Professor,

Department of IS & E,

N.I. E College of Engineering,

Mysuru.

Suggestions regarding the scheme and syllabus of 5th and 6th semester of 2022 scheme and 7th and 8th semester of 2021 scheme B.E. (CS & E).

1. Incorporate any tool as a part of syllabus. May be added as a self-study component.
2. AR & VR: Include demonstration of the concepts tools
3. Managing Big Data:
 - Check the title.
 - Self-study component: Include implementation [concepts] reduce tools.
4. Software Architecture and Design Patterns: CO1: L6: Generalise the Cos.

Mr. Natesh Plahalli, (Representative from Industry/Corporate sector)

Program Manager,

DXC Technology (Formerly Hewlett Pacicorsd Euterpuse),

Bengaluru.

Suggestions regarding the scheme and syllabus of 5th and 6th semester of 2022 scheme and 7th and 8th semester of 2021 scheme B.E. (CS & E).

1. Machine Learning (7th semester) (Integrators) revisit the 5th unit.
2. Industry 4.0: Managing the digital transformation: Case study and Digital twist
3. Augmented and Virtual Reality: Use AI tools
4. Managing Big Data: Java Interface (revisit)
5. Natural Language processing: Chatgpt, LLM modules in unit IV
6. Distributed Databases principles and systems: Phase commit architecture
Update the text book as it is showing edition 1985
7. Software Architecture and Design patterns: CO1: Design and implement codes with highly performance and lower complexity
8. Decision Support Systems: DSS user interface issues, tools for DSS development
9. Generative AI: Include case studies.

Dr Anasuya M. A (Post Graduate Meritorious alumnus)

Associate Professor

Dept. of CS & E,

JSSSTU, Mysuru-570006.

Suggestions regarding the scheme and syllabus of 5th and 6th semester of 2022 scheme and 7th and 8th semester of 2021 scheme B.E. (CS & E).

6th Semester

1. Block Chain – Include basic encryption technique

7th Semester

1. Machine Learning: Suggested to refine the fifth unit
2. Industry 4.0: Include one Case study to each module
3. NLP: Include Stanford parsing instead of wordnet, stemmer.
4. Distributed Database: Update the text book reprint edition
5. Software Design Pattern: Change the level of Blooms taxonomy from L6.
6. Generative AI: Reduce the text books

Dr. Punith Kumar M. B., Chairman BoS (UG, E, and C), welcomed all the BoS members.

He also introduced all the members to the board.

One of the members, an industry expert, was unable to join the meeting online.

The chairman started the meeting by reading the agenda of the meeting.

Agenda:

1. Approving the syllabus for the 5th and 6th semesters of the P22 scheme (NEP 2020)
2. Approving the syllabus for the 7th and 8th semesters of the P21 scheme (NEP 2020)
3. Approving the syllabus of the 6th semester professional elective subjects of the P21 scheme (NEP 2020)

5th Semester

Sl. No.	Course Code with Title	Suggestions provided by BoS members	Action taken on the BOS Members input
1	P22EC501 Innovation Entrepreneurship and Management	Approved	Accepted the course content in its current form.
2	P22EC502 Digital CMOS VLSI Design	Change the subject name. Suggested the title Fundamentals of CMOS VLSI.	The course title seems to be appropriate, hence it is retained as is.
P22EC 503X Professional Elective Course – I (Four subjects)			
3	P22EC5031 Fundamentals of object oriented Language and Database Concepts	Changes are required in the title. Remove the database concepts. Add data structure concepts and change the syllabus accordingly. (Include some of the concepts insert, push, pop, etc.)	The course is titled Fundamentals of Object-Oriented Language and Data Structures. The database part is removed, and data structures are included. The syllabus is changed accordingly.
4	P22EC5032 System Verilog	Approved	Accepted the course content in its current form.

5	P22EC5033 Control System	Approved If possible, make it a core course.	Accepted the course content in its current form. At present, it is not possible to consider it a core course due to various constraints.
6	P22EC5034 ARM Processors	Approved	Accepted the course content in its current form.
7	P22EC 504 Digital Signal Processing	Reduce syllabus. Exclude the application of DSP. It is suggested to rearrange the syllabus. Remove the FIR filter using frequency sampling. Remove AD; keep only BLT. Suggested use of DSP by author Li Tan Instead of FFT concepts being taught in detail, any application-level topics can be added with the inclusion of respective experiments (speech processing) along with Python coding.	For conceptual continuity, the filter design methods have been retained as is. The DSP Book by Li Tan is included as a reference.
P22ECO505X Open Elective – I (Four subjects)			
8	P22ECO5051 E-Waste Management	Approved	Accepted the course content in its current form.
9	P22ECO5052 Principles of Communication Systems	Approved	Accepted the course content in its current form.
10	P22ECO5053 Biometrics	In Unit -1 while adding syllabus? Is there need to remove this. COs need modifications. Textbook numbering should be in proper order. Necessity of Watermarking section?	The content of Unit 1 is modified as per suggestions. Textbook numbering is done correctly. CO's are reviewed and modified. Watermarking is discussed in the context of secured biometrics and to enhance biometric systems.
11	P22ECO5054 Introduction to IoT	Changes required in title (IoT and Sensors) retain only IoT. Reframe the Syllabus (reduce the syllabus). Change text book according to syllabus.	The course is retitled "Introduction to IoT," and the syllabus is reframed with a change of text book.

12	P22EC L506 Circuit Simulation Laboratory	Approved	Accepted the course content in its current form.
13	P22INT507 Internship - II	Approved	Accepted the course content in its current form.
14	P22HSMC508 Employability Enhancement Skills – V	Approved	Accepted the course content in its current form.
15	P22UHV509 Social Connect and Responsibility	Approved	Accepted the course content in its current form.

6th Semester

Sl. No.	Course Code with Title	Suggestions provided by BoS members	Action taken on the BOS Members input
1	P22EC601 Analog CMOS VLSI Design	Approved	Accepted the course content in its current form.
P22EC602X Professional Elective Course – II (Four subjects)			
2	P22EC6021 ITC and Multimedia	Changes are required in the syllabus title. Suggestions were given to change it to ITC and Multimedia or only ITC. But we need to remove communication from that title. Reduce the syllabus.	The course is retitled ITC and Multimedia. The communication part is retained as is, as it discusses multimedia from the perspective of transmission.
3	P22EC6022 DSP Processor and Applications	Approved	Accepted the course content in its current form.
4	P22EC6023 Embedded Systems	Approved If possible, introduce a complete embedded system development perspective starting from scratch.	Accepted the course content in its current form.
5	P22EC6024 Operating System	Suggested the title RTOS. Change the syllabus according to this title.	The current title is very appropriate with respect to the content framed; hence, it is retained as is.
P22EC603X Professional Elective Course – III (Four subjects)			
6	P22EC6031 Computer Organization	Approved	Accepted the course content in its current form.
7	P22EC6032 Digital Image Processing	Approved Self study component to be modified	Accepted the course content in its current form. Self study component is modified
8	P22EC6033 Design for Testability	Approved	Accepted the course content in its current form.

9	P22EC6034 Artificial Intelligence and Machine Learning using VLSI	Unit-1 topics repeated twice need to be checked. Textbook not added; need to check on this. The basics of AIML need to be explicitly and enthusiastically included in the introduction (concepts like support vector machines, Bayesian networks, and regression). Change the title of the course to Introduction to Artificial Intelligence and Machine Learning.	There was little confusion about the version of the syllabus; the latest version of the syllabus was verified by internal BoS members and found to address the suggestions.
10	P22EC604 Microwave and Antenna	L, T, and P need changes (3:0:2). Suggested tools for this AFSS and CST. Dr. K. R. Sudhindra suggested exploring the possibilities of a MoU to use the tools available at his institute. Textbook numbering should be in order.	L:T:P is changed as per the scheme, and the text book list is reordered. BoS has passed on the information about the MOU and its need to the Department Advisory Committee.
P22ECO605X Open Elective – II (Four subjects)			
11	P22ECO6051 Electronic Instrumentation	In line with the Mechanical and Civil Departments	The current course content is in line with the needs of the mechanical and civil departments.
12	P22ECO6052 Introduction to Embedded Systems	Approved	Accepted the course content in its current form.
13	P22ECO6053 Introduction to Image Processing	CLOs numbering should be in order. SPATIAL filters.	CLOs are reordered. SPATIAL filters are included as a part of Unit III.
14	P22ECO6054 Automotive Electronics	Course code need correction missing O in it. Unit 4: The self-learning component (SSC) needs changes. Text 1 is not written “mention that.”. CLOs need proper numbering.	The version of the syllabus draft copy was older; the latest version is found to be correct, as verified by member internal BoS.

15	P22ECL606 VLSI Laboratory	Changes are required in the syllabus title. We need to add the fundamental experiment inverter to the syllabus.	The course name is rephrased as suggested.
16	P22ECMP607 Mini – Project	CLOs numbering should be in order.	CLOs numbering is done properly
17	P22HSMC608 Employability Enhancement Skills - VI	Approved	Accepted the course content in its current form.
18	P22UHV609 Universal Human Values and Professional Ethics	Approved	Accepted the course content in its current form.

7th Semester

Sl. No.	Course Code with Title	Suggestions provided by BoS members	Action taken on the BOS Members input
1	P21EC701 Wireless and Mobile Communication	In COs, the same verb should not repeat. COs need changes to the self-learning component of units 4 and 5. I need to explain the 4G concept before unit 4. We need a simulator for CO5.	CO's rephrased as per suggestions.
2	P21EC702X Professional Elective Course – IV (Four subjects)		
3	P21EC7021 Low Power VLSI Design	Content of the syllabus is more check the syllabus and reduce the same. In COs, the same keyword should not repeat.	The content is appropriate as per the domain requirements. CO's rephrased as per suggestions.
4	P21EC7022 Cryptography and Network Security	Approved	Accepted the course content in its current form.
5	P21EC7023 Wireless Sensor Networks	Approved	Accepted the course content in its current form.
6	P21EC7024 Multicore architecture and Programming	Check COs. COs should be written by POs, not Bloom's Taxonomy.	CO's are corrected as per suggestions.
	P21EC703X Professional Elective Course – V (Four subjects)		
7	P21EC7031 Satellite Communications	Approved	Accepted the course content in its current form.
8	P21EC7032 System on Chip	Title of the subject need to be changed	Title of the course is changed as "System on Chip".

9	P21EC7033 Advanced Wireless Technology	More number of wireless subjects.	BoS members collectively advised to keep the course.
10	P21EC7034 Biomedical Signal Processing	Approved	Accepted the course content in its current form.
11	P21EC704 Computer Communication Network and IoT	L: T: P need changes (3:0:2). Split CCN and IoT	The course cannot be split as the credits are squeezed due to NEP; within the limited credits, the concepts of CCN and IoT need to be blended and served.
12	P21EC705 Research Methodology, Report Writing and IPR	Approved	Accepted the course content in its current form.
13	P21EC706 Project Work Phase – I	Approved	Accepted the course content in its current form.

1	P21EC801 Self-Study Course	Approved	Accepted the course content in its current form.
2	P21INT802 Research / Industry Internship – III	Change the title for this it has (Research / Industry)	The course title is as per the scheme provided by Dean Academics.
3	P21EC803 Project Work Phase – II	COs need to be changed. Introduce all POs	CO's are changed with effective reframing of PO mapping.

The panel meeting was concluded with an overall summary read by Dr. Punith Kumar M.B., Chairman, BoS, stating the suggestions and comments to be taken for implementation. Chairman BoS thanked all the BoS members for their valuable time and valid suggestions.

Department of Electrical & Electronics Engineering

Proceedings of the Board of Studies meeting of Department of Electrical & Electronics Engineering held on 15/05/2024

Sub: Approval of 7th and 8th Semester P21 NEP Syllabus

Dr. Mahesh Kumar K M, Head of the Department and Chairman, Board of Studies welcomed all the members of Electrical & Electronics Engineering Board of studies members to discuss and take approval of P21 NEP Syllabus (7th and 8th Semester)

The distinguished members of the board have gone through the scheme and syllabus of 7th and 8th semester P21 Scheme.

The suggestions given by BOS Members are as follows

Dr. B V Sumangala, Professor, MSRIT, Bangalore, [External Member- Subject Expert]

- Incorporating artificial intelligence and machine learning in Power system related courses
- In the course Electric & Hybrid Vehicles, suggested to refrain by removing basic of Power Electronics in unit -IV.
- Prerequisites should be mentioned for each and every course.
- Discussion on L:T:P and course Credit allocation.

Dr. Lakshmi Narayana C, Professor, BMSCE, Bangalore, [External Member- Subject Expert]

- Improve the course ‘Smart Grid’ to ‘Smart Grid Technology’ by adding communication protocols & technology related topics and tailoring the syllabus as per allotted credits.
- Reframing Course Outcomes according to Bloom’s taxonomy.
- Introduce the course ‘Artificial Intelligence & Artificial Neural Networks’ in the earlier semesters rather than in the final year so that the students are able to do minor & major project work in this area.

Dr. Shobha Shankar, Professor, VVCE, Mysore, [Subject Expert - VTU Nominee]

- Suggested to rename the ‘Self Study Course’ as ‘MOOC’S/NPTEL Course’ in 8th Semester scheme.
- In each course define one of the COs for activity based learning in order to achieve POs.

Dr. Senthil Kumar S, Global Senior IP Counsel, Hitachi Energy, [Industry Experts]

- For the Course “AC & DC Drives” suggested incorporate design concept with Course outcome with design level attributes.
- In the course Power System Operation & Control try to include AI & ML concepts. The Course should have tutorial hour to encourage students to learn MATLAB & AI/ML. This course is also Industrial focused which will be helpful in R&D sector.

Mr. Naveen Kumar Thokala, Scientist, TCS Research, [Industry Experts]

- Suggested including research oriented courses like Research Methodology (Introduction & basics) in order build a strong foundation for research works.

Dr. Mohana Lakshmi J, Associate Professor, MCE, Hassan, [Alumnus of PESCE]

- Suggested including the course Advanced Electric Drives which is very much needed in current scenario of Electric Vehicles.

Internal committee members have incorporated suggestion in the syllabus and Course outcome have been defined by considering blooms taxonomy terms.

After detailed constructive discussion and deliberations, the board members have approved the syllabi for various courses of 7th and 8th semester for the academic year 2024-25.

At the end of the session, Dr. Mahesh Kumar K M, HOD & Chairperson of BOS has expressed gratitude to all the members for their crucial and constructive views.

Department of Industrial & Production Engineering

BOS meeting was conducted on 8th May 2024, Wednesday to approve 7th and 8th Semester P21 Scheme syllabi and 5th & 6th Semester P22 Scheme which is to be implemented for the academic year 2024 – 25. The following changes were implemented as per the suggestion from the BOS Committee members.

1. Dr. Srinath MS, MCE, Hassan suggested to frame activity based syllabus & Application oriented.
2. All the BOS External members suggested to minimize the syllabus as per the hours of teaching and credits.
3. New edition textbooks and reference books were suggested to include.

P21 Scheme 7th & 8th Sem

1. **Supply Chain Management - P21IP701** – Dr. H N Diwakar, NIE Mysore and Dr. Srinath MS, MCE, Hassan Suggested to Add Logistics Part to the Supply Chain Management Course accordingly the Logistics Portions has been Included.
2. The External Members Suggested to Include Industry 4.0 and IOT to the Course accordingly the Industry 4.0 and IOT has been included in **Virtual Design & Manufacturing (P21IP7033)** Course.
3. External Members suggested that the Internal BOS & BOE Members along with the coordinator of the department in selecting NPTEL Courses for the Students.

P22 Scheme 5th & 6th Sem

1. Dr. H N Diwakar, NIE Mysore and Dr. Savitha M SJCE Mysore insisted to Included **Computer Integrated Manufacturing (P22IP5033)** in the 7th Sem Instead of 5th Sem, Accordingly Computer Integrated Manufacturing (P22IP5033) have been shifted to 7th Sem and **Mechatronics** Course have been introduced in the 5th Sem.

2. Dr. Srinath MS, MCE, Hassan Suggested to Change the Course Title of **Principles of Marketing (P22IP5051)** to **Marketing Management** accordingly Title of the Course have been changed.
3. Members suggested that the Students should carry **Internship-II (P22INT507)** and **Mini Project (P22IPMP607)** in the Industry to get Industrial Exposure.
4. **External Members suggested to reduce the portions in Just In Time Manufacturing (P21IP6051)** since it is an Open Elective accordingly the portions have been reduced.

Department of Information Science & Engineering

Proceedings of the Board of Studies meeting of Department of Information Science & Engineering held on 01/06/2024

SUGGESTIONS REPORTED BY EXTERNAL BOS MEMBERS REGARDING THE SYLLABUS FRAMING FOR 7th AND 8th SEMESTER SUBJECTS OF NEP P21SCHEME.

Manogna C S L

Senior Software Engineer
CISCO, Juniper Network.

Industry 4.0:-

- Discuss Smart Metering AMI (Advanced Metering Infrastructure), DA (distributed Automation) and DER, case studies to be discussed.

Business Analytics:-

- Application of analytic models with examples
- Use of business analytics in information technology to be discussed

Big Data:-

- Discuss various tools and framework available to analyse Big Data

Pattern Recognition:-

- Highlight different pattern recognition algorithm

Management Information System:-

- Correlate Business Analytics and its application use in MIS.
- Use of Business Analytics data to improve business and strategy
- Case studies and MIS tools / framework to be introduced.

Parallel Computing :-

- Discuss / Introduce / Provide assignments on multi threaded programming using POSIX threads
- Discuss applications of parallel computing in AI and ML
- Discuss case studies / applications of real problems which needs parallelism

Full stack development :-

- Course name is generic while the course discusses only on web development “Full Stack Development” would be a better name.
- Introduce full stack development
- What qualities a programmer to be a full stack developer
- Instead of focussing only on respective tool discuss on couple of more tool

Multicore Programming :-

- Application case studies to be discussed
- Correlate parallel computing course concepts

Data Science:-

- Relate AI and ML in Data Science
- Discuss privacy issues in data analytics introduce PII personally identifiable information in the context of privacy

Natural Language Processing: -

- Discuss the importance of state machine / state diagrams.
- Discuss application of NLP in AI chat GPT and chat Bits
- Application of NLP in debugging real world problem.

Dr. Devaki P D

Professor, Dept. Of CS and E
NIE, Mysore.

- CO – PO-PSO Mappings needs revisit
- Active verbs like understand can be replaced and also multiple action verbs in same CO, needs change
- Level-3 is missing in most of the courses in CO-PO mapping
- In the course data science CO2 and CO4 needs revisit on framing of theory question will be difficult
- In the course pattern recognition include “Basics of Fuzzy logic” topic which is in the self-study component to the main topic
- In few of the course PSO’s one not mapped.

- In the course NLP CO-PO mapping one at level-1 please revisit

Pallavi Bedre

Corporate Trainer Infosys, Mysore.

Industry 4.0: -

- Robotics introduce prompt engineering

Business Analytics: -

- Introduce the tools
- Research work assignments to explore tools

Management Information System: -

E commerce

- Introduce one assignment to analyze at least three types of marketing system.

Full Stack Development: -

- Comparison of MEAN stack and MERN stack

Data Science:

- On PII related activity to categorize the data

Natural Processing Language:

LLM Introduce Prompt engineering with chat GPT

Department of Mechanical Engineering

Meeting held on 30-04-2024 in the Department of Mechanical Engineering, PESCE, Mandya.

Table of Proceedings/ Suggestions given by BOS Experts and implementation /Rectification

Sl. No.	Name of the BOS Member	Suggestions given by experts	Rectifications/Implementations or Suggestions taken by Department
1.	Dr. R. KESHAVAMURTHY Professor & Head of Department Mechanical Engg. DayanandaSagar College of Engg.	Consider inclusion of operation research subject in place of Tribology as core subject for 7th semester. Consider shifting unit-2 in condition based monitoring subject to unit-4 or unit-5.	Suggestion is considered and incorporated in the Scheme. Suggestion is considered and incorporated in the syllabus.

Sl. No.	Name of the BOS Member	Suggestions given by experts	Rectifications/Implementations or Suggestions taken by Department
	Bengaluru-560078	Mechanical vibration is a pre-requisite for condition based monitoring subject, consider inclusion of vibrations topics in the beginning for Theory of Machine subject.	Suggestion is considered and incorporated in the syllabus.
		Add additional topics for advanced manufacturing process subject in particular for the fifth module with additive manufacturing topics.	Suggestion is considered and incorporated in the syllabus.
		Rearrange topics in composite material subject in sequential order, Introduction, materials-classification fabrication of PMC, MMC, CMC, testing and application aspects.	Suggestion is considered and the topics in composite material are rearranged. It has been incorporated in the syllabus.
		Tribology subject-Remove some of the fundamental topics included in the surface roughness module which are covered in the measurement subject.	Suggestion is considered and incorporated in the syllabus.
2.	Dr. D. K. RAMESHA Professor Department of Mechanical Engineering, University Visvesvaraya College of Engg., Bangalore.	Tribology- Accomodate in P.E. V.	Suggestion is considered and incorporated in the Scheme.
		Operational Research- Accommodate in course title instead of tribology.	Suggestion is considered and incorporated in the Scheme.
		Self-study course- Only SEE; No CIE, suggestion to look into IIT, Opted subjects along with NPTEL courses.	For Self-study course- only CIE no SEE as per the regulations.
		O.R- No corrections in Syllabus.	-NIL-
		M/M/1 explanation to be added.	Discussed with internal BOS members and decided to keep as it is.
		CFD- More importance on case study/Practical applications.	Suggestion is considered and incorporated in the syllabus.
		Condition based monitoring- Flow of units to be modified (units).	Suggestion is considered and incorporated in the syllabus.
		Hydraulics & Pneumatics: No comments.	-NIL-
		Composite materials- unit flow to be modified.	Suggestion is considered and the topics in composite material are rearranged. It has been incorporated in the syllabus.

Sl. No.	Name of the BOS Member	Suggestions given by experts	Rectifications/Implementations or Suggestions taken by Department
		Robotics & AI- Usage of arduino based concept can be included.	Suggestion is considered and incorporated in the syllabus.
		Theory of machines- No comments.	-NIL-
		Tribology- Unit I and unit III to be modified.	Suggestion is considered and incorporated in the syllabus.
3.	Dr. G.V. NAVEEN PRAKASH Professor and Head of Department Mechanical Engineering, VVCE, Mysore- 570002	Instead of Tribology as core course in the 7 th semester, Operations Research can be made as a core course.	Suggestion is considered and incorporated in the Scheme.
		Kindly cross check LTP in scheme & detailed syllabus.	Suggestion is considered and checked with scheme. Same has been incorporated in the syllabus.
		Kindly maintain a sequential flow in the syllabus of composite materials.	Suggestion is considered and the topics in composite material are rearranged. It has been incorporated in the syllabus.
		Kindly revise the syllabus of robotics and artificial intelligence.	Suggestion is considered and incorporated in the syllabus.
		In Theory of Machines-II, Vibration concepts can be the first two modules instead of last two modules.	Suggestion is considered and incorporated in the syllabus.
		For self study course SEE can be considered for 100 marks instead of CIE.	For Self-study course- only CIE no SEE as per the regulations.
		Kindly revise module-III in the course Tribology.	Suggestion is considered and incorporated in the syllabus.
4.	Jayaprakash A J TCS, Bengaluru	Suggest operation research to be included as core subject instead of Tribology.	Suggestion is considered and incorporated in the Scheme.
		For self-study course, suggest to expose students to IIT online course.	Suggestion is considered and students will be informed to take IIT online course for self-study course.
		For OR introduce practical application like usage of google map, timing of metro train etc. To relate principles of OR & application.	Discussed with the subject expert and the same syllabus is retained.

Sl. No.	Name of the BOS Member	Suggestions given by experts	Rectifications/Implementations or Suggestions taken by Department
		CFD P21ME7021- include practical application/case study of CFD application instead of FEM introduction.	Discussed with the subject expert and the same syllabus is retained.
		Hydraulic & pneumatics- include practical applications/simulation involving all components of H & P to relate all components from subsystem design point of view.	Discussed with the subject expert and the same syllabus is retained.
		Include additive layer manufacturing details in semester III & IV.	Discussed with internal BOS members will be included in new scheme.
		Composite materials- include BD matrix and its importance.	Discussed with the subject expert and the same syllabus is retained.
		Robotics & AI- unit-V, subject in this section to be revised in accordance to AI.	Suggestion is considered and incorporated in the syllabus.
		Theory of Machines-II- relook practical contents especially demonstration experiments.	Discussed with the subject expert and the same syllabus is retained.
5.	Vishnu vardhan J 4PS21ME457 8 th Semester Mechanical Engineering PESCE-Mandya	Composite materials can be shifted to 6 th semester for better projects & Research works.	Discussed with internal BOS members will be included in new scheme.
		Shift hydraulics & Pneumatics from professional elective IV to V & add future scope object can be added.	Discussed with the subject expert and the subject is retained in the same group (professional elective IV).
		Add ERP software basic knowledge in TQM.	Discussed with the subject expert and the same syllabus is retained.
6.	Vaishnavi N M 4PS20ME080 8 th Semester Mechanical Engineering PESCE-Mandya	Composite materials put in 6 th semester instead of 7 th semester.	Discussed with internal BOS members will be included in new scheme.

Department of Computer Science & Engineering (AI&ML)

Proceedings of the 2nd BE – Computer Science & Engineering (Artificial Intelligence & Machine Learning) Board of Studies (BoS) Meeting held on Saturday, 10th August, 2024

Members Present

- Dr. Umesh D R – Chairman (BoS), Professor & Head – CSE(AIML), PESCE, Mandya
- Dr. Nagarathna – Professor & Head - CSE, PESCE, Mandya
- Dr. Ravi Kumar V – Professor & Head - ISE, VVCE, Mysuru
- Dr. Srinath S – Professor & Head - CSE, JSSSTU, Mysuru
- Dr. Gururaj H L – Associate Professor (IT), MIT, Bengaluru
- Dr. M L Anitha – Professor & Head – CSE (Data Science), PESCE, Mandya
- Dr. Nayaka S R - Assistant Professor, Mathematics, PESCE, Mandya
- Prof. Sindhu P - Assistant Professor, CSE (AIML), PESCE, Mandya
- Prof. M C Ashwini - Assistant Professor, CSE (AIML), PESCE, Mandya

Members Absent

- Dr. R Girisha – Professor, CSE, PESCE, Mandya
- Mr. Praveen B N, Data Engineer, Anteriad, Bengaluru
- Miss. Medini B V, Embedded Engineer, DLithe Consultancy Pvt. Ltd., Bengaluru

ITEM – 1: Welcome the Members of Board of Studies

At the outset, the Chairman, welcomed the Honourable Board of Studies members for the 2nd BE – Computer Science & Engineering (Artificial Intelligence & Machine Learning) BoS Meeting.

The following subjects as per the agenda have been discussed in the meeting and resolutions passed accordingly.

ITEM – 2: Approval of Minutes of the 1st Board of Studies Meeting held on 21st October, 2023

Resolved to approve the proceedings of the 1st Board of Studies Meeting held on 21st October, 2023.

–Approved–

ITEM – 3: Action taken on the 1st Board of Studies Meeting held on 21st October, 2023

The Action taken on the proceedings of the 1st Board of Studies Meeting was brought to the notice of all Board of Studies Members and the same was appreciated and also approved by the Members.

–Approved–

ITEM – 4: Approval of P22 NEP Scheme & Syllabus for BE – CSE(AIML) III Year.

The syllabi for the 5th and 6th semesters were presented by the concerned faculty members. The presentation included an elaborate discussion of the syllabi, with suggestions from external members listed below. The P22 NEP Scheme & Syllabus (5th

and 6th semesters) was approved with a few changes based on the recommendations from the BOS members.

Views of External Members:

Dr. Ravi Kumar V

1. **Professional Electives:** Suggested to incorporate vertical integration in framing the professional electives.
2. **New Subjects:** The inclusion of subjects such as Generative AI, LLM, and ChatGPT - related content was recommended.
3. **Coding Platforms:** Advised to utilize coding platforms that will enhance students' job readiness.

Dr. Gururaj H L

1. **New Subjects:** Suggested to include subjects such as Generative AI and Federated Learning.
2. **Tools:** The use of various tools like Tabulae, Zetsun, and PyCharm was recommended.
3. **Elective Subjects:** Proposed that elective subjects be reviewed and modified as needed.

Dr. Srinath S

1. **Core Courses:** Suggested to include Machine Learning (ML) and Advanced Machine Learning as core courses.
2. **Final Year Courses:** Generative AI course recommended for final year.
3. **Elective Basket:** Full Stack Development and DevOps courses were recommended for inclusion in the elective basket.

Dr. Anitha M L

1. **Generative AI Topics:** Suggested to include topics related to Generative AI.
2. **Advanced ML & AI Concepts:** Advanced concepts in Machine Learning (ML) and Artificial Intelligence (AI) should be covered in skill development courses.

Dr. Nayaka S.R

The course alignment is well planned. However, he suggested to incorporate a vertical approach in framing the professional electives.

No other subjects were discussed, and the meeting was concluded with a vote of thanks by Dr. Umesh D R, Chairperson, BOS – CSE(AIML), who thanked all the members present for their valuable suggestions.
